Re: *Performance Measurements for Telecommunications Interconnection,
Unbundling and Resale*; Docket No. 7892-U

Dear Mr. McAlister:

In its December 4, 2001 filing in the above-referenced docket, BellSouth Telecommunications, Inc. ("BellSouth") indicated that it was still in the process of confirming the specific products included in the current service order accuracy measure. This information was requested at the workshops and was the subject of an e-mail from T.J. Sauder with Birch Telecom dated December 3, 2001.

This letter is to advise the Commission and the parties that the service order accuracy measure currently includes the following products: Residence, ISDN Residence, ISDN Basic Rate Residence, Business, PBX, CENTREX/ESSX, ISDN Business, Switched Based Business, ISDN Basic Rate Business, UNE 2W Analog Loop, UNE Loop Other associated w/NP, UNE Loop Other, Unbundled Ports (Switching), Combo-Loop + Port Partially Mech, UNE Combo Other, UNE 2 Wire Loop, UNE Loop, UNE 2W Analog Loop w/o LNP, UNE 2W Analog Loop w/LNP, UNE 2W Analog Loop w/INP, UNE ISDN w/INP, UNE Capable Loop, UNE ISDN w/LNP, UNE Capable Loop w/LNP, UNE Digital Loop, UNE DS3 Local Loop, UNE DS1 Local Loop, UNE STS-1 Non-Channelized Local Loop, UNE ADSL Loop, UNE HDSL Loop, UNE Copper Loop, UNE ADSL Loop with Conditioning, UNE HDSL with Conditioning, UNE Copper Loop with Conditioning, UNE Other, UNE 2W Loop associated w/NP, Unbundled Ports Switching, UNE 2W Loop associated w/INP, Combo - Loop + Port Partially Mech, Combo Other, UNE INP (Standalone), UNE Loop + Port Combinations Partially Mech, UNE 2W Analog Loop w/o NP, and Local Interconnection Trunks.

Mr. Reece McAlister

Page 3

Mr. Sauder's e-mail also requested a "high level" list of BellSouth products that are included in the retail analogue for UNE Loop + Port Combinations. This information responsive to this request was included in Attachment P-9 to the materials filed by BellSouth on December 4, 2001, although it was not expressly labeled as such.

BellSouth also is in receipt of an e-mail dated December 4, 2001 from Karen Kinard with MCI WorldCom requesting that BellSouth provide certain information. BellSouth believes that it has provided the information requested during the workshops. However, some of the information addressed in Ms. Kinard's e-mail was not requested during the workshops, and it is unreasonable to expect BellSouth to provide such information with less than one week's notice.

Enclosed please find an original and eighteen (18) copies, as well as an electronic version, of this letter for filing in the above-referenced proceeding. I would appreciate your filing these reports and returning the three (3) extra copies stamped "filed" in the enclosed self-addressed and stamped envelopes.

Yours very truly,

Bennett L. Ross
